

Excellent

The sustainable alternative to plastic

Oppboga
Paperboards done right

Indoor sign? Forget plastic, choose Oppboga Excellent!

Manufactured in the heart of Sweden, Excellent is the market leading display board for indoor retail signage and POS applications. This smooth, white-centred board with clean core provides an ideal recyclable alternative to plastic.

Benefits v plastic

- Fully recyclable unlike most plastics
- Available as FSC certified
- Beautiful smooth white surface with clean core
- Superb printability – Suitable for direct print in offset, screen and UV flatbed digital
- Superior cutting results – will not crack and shatter like foam PVC
- Superior stiffness - 50% greater stiffness than leading European made foam PVC
- Reduce transport and storage costs by 33%
- Outstanding flatness –Excellent remains flat throughout the lifespan of the product

Applications

- Hanging signs
- Free standing displays
- Point of sale displays
- Retail displays and indoor signage

Ideal alternative to

- Foam PVC
- Styrene/foam boards
